

Description

Cold weather hazards are the primary meteorological cause of aviation incidents and accidents worldwide. Learn how to keep your aircraft, crew and passengers safe with FlightSafety's updated **Winter Operations** Course. This is the most comprehensive online training course on cold weather hazards for flight department personnel and has been updated for the 2011-12 winter season.

NEW!! The 2011/12 season course includes:

- New FAA 2011/12 Holdover Time Tables
- Certification process of aircraft for flight into icing conditions
- Updated accident scenarios

Features and Benefits

- Learn how to operate safely in cold weather conditions
- Employs an operationally-oriented approach that reflects FlightSafety's experience with winter training operations
- Interactive & engaging

Target Audience

Pilots, flight attendants, maintenance technicians, and line personnel who need familiarity with winter operations

Course Objectives

Cold Weather Operations 2011/12 provides flight department personnel with knowledge of the concepts, procedures, and guidelines that govern safe operations within a cold weather environment. It includes summaries of aviation accidents attributed to inadequate pre-takeoff inspections, inadequate de-icing and anti-icing procedures, and insufficient awareness of in-flight icing hazards. Cold Weather Operations 2011/12 includes the following topics:

- Introduction and Course Overview
- Ground Icing
- Deicing, Including use of the 2011/12 Holdover Time Tables
- Anti-Icing, Including use of the 2011/12 Holdover Time Tables
- In-flight-Icing
- Cold Weather Operational Takeoff
- Cold Weather Operational Approach and Landing
- Runway Visibility, Contamination and Related Considerations
- Post-Course Assessment (Exam)

Regulatory Requirements

Meets American, European and Canadian Requirements when approved by a POI.

Two Online Training Options

Now you have the option of taking your online Cold Weather Operations training in either of two ways:

1. Self-paced eLearning, or
2. LiveLearning®

What is LiveLearning?

It's instructor-led training over the web! To learn more about LiveLearning, visit : <http://www.flightsafety.com/livelearning>

Price

eLearning - \$295 USD/person

LiveLearning - \$315 USD/person

How to Purchase

For more information or to purchase this course, please visit our eLearning website: www.flightsafety.com/elearning

About eLearning

We deliver web-based eLearning courses that are entirely self-paced. Log on whenever and as often as needed until you complete the course.

Our LiveLearning courses are web-based and instructor-led, providing all the benefits of being in the classroom, without having to leave the comfort of your home.

Our Learning Management System records your progress and keeps track of your online training. Once you've completed a course and successfully passed the test, you are awarded a certificate of completion. You can access and print your eLearning Records of Training through myFlightSafety.com.

Tracking by Chief Pilot or DOM

Upon request, we can email weekly progress reports to the administrator of any account.

Technical Support

FlightSafety eLearning technical support analysts are available by telephone during normal business hours and via e-mail after hours.

Computer System Requirements

- Display setting of 1024x768 or greater
- Sound card with speakers or headset
- Flash v9.0+
- Internet Explorer 6+ or Mozilla Firefox 1.5+

To test and install the WebEx client, please go to: <http://www.webex.com/lp/jointest/>

ThinkSafety.

FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. Our company provides more than a million hours of training each year to pilots, technicians and other aviation professionals from 154 countries and independent territories. FlightSafety operates the world's largest fleet of advanced full flight simulators at Learning Centers and training locations in Asia, Europe, North and South America, the Pacific Rim, South Africa and the United Kingdom.
