

Learn the G1000 Online

FlightSafety's hands-on course gives you instant access to learn the Garmin G1000 from any computer with an internet connection.

Our knowledge-based and scenario-driven instructional styles – used throughout the course – makes learning easy and exciting.

Today's Most In-Demand Avionics

The Garmin G1000 – the most desired glass cockpit avionics in the general aviation community – is in use on some of today's most widely flown piston aircraft from a wide range of manufacturers.

- Beech
- Cessna
- Diamond
- Mooney
- Piper
- Tiger

Features and Benefits

Learning the G1000 online saves you the money typically spent on aircraft rental fees and Hobbs time so you can spend more time in the air!

- Less training time required to become proficient with the G1000
- Interactive, engaging, “hands on”
- Developed by experienced pilots, flight instructors and Garmin experts
- Available online anytime, anywhere
- Addresses features such as the Garmin autopilot (GFC 700), TAWS, WAAS, FliteCharts, XM weather and more
- Resource documents available for download
- Extra features include a search engine, glossary, bookmarks, notepad and more

Three-Stage Training Approach

- 1. Demo** – Allows you to go through a specific task for the first time and gain an understanding of its use.
- 2. Try It** – Allows you to perform tasks on your own – the system then offers feedback as to whether the steps are being followed correctly.
- 3. Evaluate** – Presents you with a similar task to be completed successfully before proceeding to the next module.

How to Purchase

For more information or to purchase this course, please visit our eLearning website: www.flightsafety.com/eLearning

Price

\$275 USD/person

Time Commitment

11-13 hours

Delivery

100 percent web-delivered and self-paced

Credit

FlightSafety certificate of completion

Additional Garmin Courses

- G1000 for the Citation Mustang
- G1000 for the King Air C90/GT and B200
- G900X for Kitplanes

About eLearning

We deliver web-based courses that are entirely self-paced. Log on whenever and as often as needed until you complete the course.

Our Learning Management System tracks your progress and returns you to where you left off. Once you've completed the course and successfully passed the test, you are awarded a certificate of completion. You can access and print your eLearning Records of Training through myFlightSafety.com.

Tracking by Chief Pilot or DOM

Upon request, we can email weekly progress reports to the administrator of any account.

Technical Support

FlightSafety eLearning technical support analysts are available by telephone during normal business hours and via e-mail after hours.

Computer System Requirements

- Display setting of 1024x768 or greater
- Sound card with speakers or headset
- Flash v9.0+ and Java v1.5+ (freely available)
- Internet Explorer 6+ or Mozilla Firefox 1.5+

Our system will perform a quick test on your configuration, and guide you through any downloads you may need.

ThinkSafety.

FlightSafety International is the world's premier professional aviation training company and supplier of flight simulators, visual systems and displays to commercial, government and military organizations. The company provides more than a million hours of training each year to pilots, technicians and other aviation professionals from 154 countries and independent territories. FlightSafety operates the world's largest fleet of advanced full flight simulators at Learning Centers and training locations in the United States, Canada, France, Japan, South Africa and the United Kingdom.
