

Introducing iFlightDECK™

Professional Aviation Training Tool

- Interactive FlightDeck or iFlightDECK provides an interactive cockpit poster of your aircraft allowing easier transfer of information.
- Applicable to both pilots and maintenance technicians.
- Pilot Training Handbook is linked to the cockpit poster allowing you information as you need it.
- Enhances understanding of switchology, location, function and systems in the cockpit.
- Allows you to select an item on the cockpit poster and watch the process.
- Software is continually updated providing you with the latest information
- Annual subscription makes it accessible anywhere an internet connection is available and can be accessed from a laptop, Smartboard or computer.
- Complete up-to date access year round to FlightDeck Builder, Interactive flows, Pilot Training Handbook, Flashcards & Maintenance Manuals.
